Amit Rao Yadav

Director – Finance & Operations | Vendor Management | Supply Chain & Logistics Strategy | Cost Optimization | MIS & Cash Flow Expert

Gurgaon, Haryana, India

Summary

Seasoned and impact-driven finance and operations executive with over 13 years of cross-functional expertise in logistics, vendor management, supply chain strategy, and financial operations. Proven ability to optimize operational performance, reduce costs, and scale high-impact logistics solutions across dynamic business environments. Adept at managing multimillion-dollar budgets, aligning cross-functional teams, and driving data-backed decisions through robust MIS frameworks. Recognized for enhancing cash flow, minimizing DSO, and improving last-mile delivery benchmarks through strategic vendor partnerships.

Currently leading finance and operations at WhiteBrands Group, with a successful track record at Nimbuspost and other logistics-driven ventures. Passionate about building sustainable supply chains and transforming operations into value-generating functions.

Experience

White Brands

Director of Finance And Operations

October 2023 - Present (3 years 1 month)

Gurugram, Haryana, India

• Negotiated zonal and regional courier rates, reducing Cost per Shipment (CPS) and improving last-mile delivery efficiency.

• Lowered shipping costs from 15% to 8–10% by shifting from aggregator platforms to direct courier partnerships.

• Boosted delivery success rates from 54% to 60% by implementing same-day dispatch models.

• Increased prepaid order share and prioritized their dispatch to reduce cancellations and enhance delivery performance.

• Reduced cancellation rates from 12% to 8% by filtering out underperforming pincodes.

• Segmented SKUs into fast-, slow-, and non-moving categories to improve inventory turnover and delivery rates.
• Adjusted product pricing and introduced bundling to improve unit economics for underperforming SKUs.
• Conducted SKU-level profitability audits on Amazon and Flipkart; retained high-margin products and removed low-performing ones.
• Managed end-to-end vendor relationships, including onboarding, SLA governance, and performance tracking.
• Handled high-volume AP processing across last-mile and 3PL vendors, ensuring timely and accurate disbursals.
• Executed vendor ageing analysis and negotiated credit cycles to reduce Days Sales Outstanding (DSO) and improve cash flow.
• Managed full-cycle COD reconciliation, resolving disputes and improving receivables turnaround.
• Developed financial risk frameworks to support vendor continuity and service reliability.
• Led logistics budget planning and vendor-based forecasting to align with growth and cost-efficiency goals.
• Built MIS dashboards to monitor real-time logistics KPIs, cost-to-serve, and SLA metrics.
• Conducted regular variance analysis (weekly, bi-weekly, monthly) to evaluate operational performance.
• Refocused media and operational efforts from high-revenue to high-ROI pincodes for better topline impact.
• Collaborated with marketing to pause underperforming campaigns and reallocate spend to high-performance zones.

NimbusPost

2 years 4 months

Director Growth & Strategy

April 2022 - April 2023 (1 year 1 month)

Gurugram, Haryana, India

• Led the onboarding of new courier partners and designed dynamic pricing plans tailored to regional performance and service tiers.
• Developed and executed courier allocation logic, improving delivery efficiency and increasing gross profit from 18% to 23%.
• Introduced zonal flat pricing to enhance seller transparency and align courier assignments by regional performance and cost-effectiveness.
• Negotiated incentive-based courier rates, achieving a 5–10% reduction in overall billing for high-volume thresholds.

• Conducted SKU weight audits to eliminate undercharges, increasing revenue accuracy and preventing courier billing discrepancies.
• Worked with Key Account Managers and Sales teams to guide vendors on product resizing and packaging improvements, reducing volumetric shipping costs.
• Created and implemented a dispatch pricing model for high-RTO vendors, resulting in 30%+ growth in landed revenue.
• Enforced penalty frameworks on courier partners for fake delivery attempts, improving last-mile delivery integrity and accountability.
• Shortened courier cash remittance cycles by streamlining COD reconciliation processes, boosting liquidity and working capital turnover.
• Built real-time tracking systems to monitor outstanding payments from major clients such as CRED and Meesho.
• Partnered with enterprise clients to create customized, performance-driven logistics workflows tailored to their operational needs.
• Collaborated with Sales and KAM teams to resolve unbooked order gaps, maximizing seller utilization and increasing order throughput.
